Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at http://about.jstor.org/participate-jstor/individuals/early-journal-content.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

# SCIENTIFIC BOOKS

## METEORITES

Their Structure, Composition and Terrestrial Relations.

By Oliver Cummings Farrington, Ph.D., Curator of Geology, Field Museum of Natural History, Chicago.

This work gives a complete and accurate account of the present knowledge of Meteorites and embodies the results of the latest researches on the subject. "This volume will at once interest the intelligent amateur and be of value also to the trained specialist." American Journal of Science.

Pp. x+233; 65 illustrations. Price $2. Postage extra, 2 lb. rate.

For sale by **COLONIAL PRESS, 1510 East 56th Street, Chicago, Illinois.**

---

## A BRIEF ACCOUNT OF RADIO-ACTIVITY

By Francis P. Venable, Ph.D., D.Sc., LL.D., Professor of Chemistry, University of North Carolina.

The object of this treatise is to give a simple account of the development of our knowledge of radio-activity and its bearing on chemical and physical science.

Pp. vi+52

**D. C. HEATH & COMPANY**

**Boston New York Chicago**

---

## The Electron, its Isolation and Measurement and the Determination of Some of its Properties.

By Robert Andrew Millikan, Professor of Physics in the University of Chicago.

The purpose of this volume is to present the evidence for the atomic structure of electricity to describe the most significant properties of the electron, and their bearing on the structure of the atom and the nature of electromagnetic radiation.

**The University of Chicago Press**

---

## DESCRIPTIVE MINERALOGY

By William Shirley Bayley, Professor of Geology in the University of Illinois.

A text-book for college classes, designed to give the student a comprehensive view of modern mineralogy rather than a detailed knowledge of many minerals.

Pp. xvii+542; Illustrated, cloth, $1.50.

**D. Appleton & Company, New York**

---

## DISCOVERY, OR THE SPIRIT OF SERVICE IN SCIENCE

By R. A. Gregory

The main purposes of this book are to promote a more sympathetic attitude towards those who are engaged in the pursuit of scientific truth and to remove the wide-spread conception which prevails as to the meaning and influence of science.

Pp. viii+340

**Macmillan and Co., Limited London** — **The Macmillan Company New York**

---

## A HANDBOOK OF MEDICAL ENTOMOLOGY

By Wm. A. Riley, Ph.D., and O. A. Johannsen, Ph.D., Cornell University.

A new and up-to-date account of poisonous and parasitic insects and their allies, especially those that transmit and disseminate disease. Illustrated. Keys for identification, Cloth, 350 pages. Price $2.20 postpaid.

*Send for circular*

**The Comstock Publishing Company, Ithaca, New York**

---

## CHARACTER AND TEMPERAMENT

**The Psychological Sources of Human Quality**

By Joseph Jastrow, Professor of Psychology, University of Wisconsin.

(Conduct of Mind Series)

**D. APPLETON & COMPANY. 1915**

---

## ARBOREAL MAN

By F. Wood Jones, M.B., D.Sc., Professor of Anatomy in the University of London.

An attempt to take stock of what is probable concerning the phylogenetic story of Man, in order to see if there is any stage in his evolution at which he or his remains might be labeled as human.

Pp. x+230. Price $2.40 net

**LONGMANS, GREEN AND CO. New York and London**

---

## THE INFLUENCE OF MONARCHS

**Steps in a New Science of History**

By Frederick Adams Woods, Lecturer in Biology, Massachusetts Institute of Technology.

"The historiometry of Dr. Woods is in principle a legitimate extension and a logically legitimate refinement of the long since well-known disposition to explain human history in terms of 'historical tendencies' and of 'historical forces'."

*—Dr. Josiah Royce in Science, April 17, 1914.*

*$2.00*

**THE MACMILLAN CO., Publishers New York**

---

## THE UNCAUSED BEING AND THE CRITERION OF TRUTH

By E. Z. Derr, M.D.

A profoundly philosophical work.—*San Francisco Argonaut.*

Of a highly philosophical character. The author reveals the weak points in Pantheism and Polytheism as these systems find expression in modern writings.—*Springfield Republican.* $1.00 net.

**Sherman, French & Company, Publishers Boston**

---

## THE NATURE OF MATTER AND ELECTRICITY

**An Outline of Modern Views**

By Daniel F. Comstock, S.B., Ph.D., Massachusetts Institute of Technology, and Leonard T. Troland, S.B., A.M., Ph.D.

This book attempts to give in broad schematic form the conception of the structure of the material universe, which has developed in the minds of modern students of physical science.

Pp. xxii+194 and 32 illustrations. Price $2.00

**D. VAN NOSTRAND COMPANY, New York**

---

## FOOD POISONING

By Edwin O. Jordan

Presenting the results of a thorough investigation of a question of special importance.

Seventh volume in the University of Chicago Science Series.

*Complete list on request*

viii+112 pages; $1.00 net, postage extra

**THE UNIVERSITY OF CHICAGO PRESS**
**Chicago, Illinois**

---

## TELEPHONE APPARATUS

**An Introduction to the Development and Theory**

By George Defrees Shepardson, Sc.D., Professor of Electrical Engineering of the University of Minnesota.

This is the first extended treatise in any language devoted to the general principles underlying telephone apparatus.

Pp. xvii+337.

**D. Appleton & Company, New York**

---

**Method of sizing the pipes for low pressure steam heating based upon the loss of pressure per lineal foot. Four large tables and a few small ones. 4½ x 6½; 47 pp.; $2.00 postpaid.**

**Losses of pressure per lineal foot for different coefficients of friction. 1 table, 50 cents postpaid.**

**I. CHAIMOVITSCH, M.E., LL.B.**
**P. O. Box 298. Chicago**

# SCIENCE

***A WEEKLY JOURNAL DEVOTED TO THE ADVANCEMENT OF SCIENCE***

FRIDAY, NOVEMBER 2, 1917

The Structure of Atoms, and the Evolution of the Elements as related to the Composition of the Nuclei of Atoms, Professor William D. Harkins.

Scientific Events:
Chemicals and War in England: Faculty Changes at the Massachusetts Institute of Technology; The University of Pittsburgh and the Army Medical Service; The War and Navy Departments and the Coast and Geodetic Survey.

Scientific Notes and News.

University and Educational News.

Discussion and Correspondence:
Algonkian Bacteria and Popular Science, Dr. Henry Fairfield Osborn. The Teaching of Optics, Dr. David Vance Guthrie. Trans-Pacific Agriculture, Dr. O. F. Cook. Benjamin Franklin and the Struggle for Existence, Professor B. W. Kunkel.

Scientific Books:
Lunge on the Manufacture of Sulphuric Acid, Professor Jas. Lewis Howe. An Encyclopedia of Peaches, F. A. W.

Special Articles:
Comparison of the Catalase Content of the Breast Muscle of Wild Pigeons and of Bantam Chickens, W. E. Burge. Cilia in the Arthropoda, Dr. Nathan Fasten. Rhythmic Banding, Dr. Harry N. Holmes.

FRIDAY, NOVEMBER 9, 1917

The Structure of Atoms and the Evolution of the Elements as related to the Composition of the Nuclei of Atoms, Professor William D. Harkins.

The Care of Wounded Soldiers.

Deaths among Ornithologists.

Scientific Events:
War Service for Chemists; The Mayo Foundation; The Connaught Laboratories of the University of Toronto; The Annual Meeting of the Federation of American Societies for Experimental Biology; The Pittsburgh Meeting of the American Society of Naturalists.

Scientific Notes and News.

University and Educational News.

Discussion and Correspondence:
The "Age and Area" Hypothesis of Willis, Dr. E. W. Sinnott. Erasmus Darwin and Benjamin Franklin, W. C. Peckham.

Quotations:
The Physique of Recruits.

Scientific Books:
Healy on Mental Conflicts and Misconduct, Professor R. S. Woodworth. Shepardson on Telephone Apparatus, A. E. K.

Special Articles:
Anesthesia and Respiration, A. R. C. Haas. The Life History of the Clothes Moth, Dr. Ralph C. Benedict. A Chromosome Difference correlated with Sex Differences, Dr. Charles E. Allen.

The American Astronomical Society, Dr. Joel Stebbins.

**Annual Subscription $5.00.** **Single Numbers 15 cents.**

**Published every Friday by**

**THE SCIENCE PRESS**

**LANCASTER, PA.** **GARRISON, NEW YORK.**

**Sub-Station 84: New York**

# SCHOOL AND SOCIETY

## A weekly journal covering the field of education in relation to the problems of American democracy

**Edited by J. McKEEN CATTELL**

SATURDAY, OCTOBER 20, 1917

State aid for Departments of Education in Non-state Institutions, Lester B. Rogers.
The Strength and Weakness of Roman Education, C. F. Ross.
Educational Events:
The American University Union in Europe; The Registration of New York University; The Frankforter and Dietrichson Case at the University of Minnesota; The Teachers' Retirement Law in North Dakota; Expenditures of the Rockefeller Foundation.
Educational Notes and News.
Discussion and Correspondence:
Graduate Schools of Education, G. W. A. Luckey.
Quotations:
Columbia University and Professor Cattell.
Books and Literature:
High-school Entomology, T. D. A. Cockerell.
The College President, Vaughan MacCaughey.
Educational Research and Statistics:
Correcting Tardiness among First-year High-school Boys, R. C. Benedict.

SATURDAY, NOVEMBER 3, 1917

The Position of Luther upon Education. Harry G. Good.
Supervised Study in the Junior High School, H. C. Hines.
Educational Events:
Military Training in the Schools of Foreign Countries; Public Health Charts for Teachers; A City Government Exposition; Libraries and National Service; The University of Michigan and Teachers of Manual Training.
Educational Notes and News:
Discussion and Correspondence:
Social Relationships in French and American Elementary Schools, Frank A. Manny.
Quotations:
Science Teaching in English Secondary Schools.
Books and Literature:
Davis on Public Secondary Education, Dr. I. L. Kandel.
Professors' Salaries, Vaughan MacCaughey.
Educational Research and Statistics:
The Validity of the Ayres Spelling Scale, Thomas H. Briggs, Florence E. Bamberger.

SATURDAY, OCTOBER 27, 1917

Does the Study of Mathematics train the Mind specifical or universally? Ernest C. Moore.
The Troubles of College Freshmen, Julias Boraas.
Educational Events:
Psychological Examinations at the Army Cantonments; The Education of English Recruits; Registration at the University of Pennsylvania; Disorder among the Children of the New York City Schools; The Trustees and the Faculties of Columbia University.
Educational Notes and News.
Discussion and Correspondence:
The British National Union of Teachers, C. W. Crook.
Quotations:
The Gary System in Politics; The Scarcity of Teachers.
Books and Literature:
Educational Journals.
The Board of Superintendents of New York City.
Harvard Bureau of Vocational Guidance.
Educational Research and Statistics:
Rating Men by Observation, G. C. Brandenburg.

SATURDAY, NOVEMBER 10, 1917

Vocational Guidance through the Life-career Class, John M. Brewer.
The Municipal University, Carl Holliday.
The Girls' Doll Festival, John Bovingdon.
Educational Events:
The School Medical Service of Great Britain; Five More States in Kindergarten Advance; Special War Duty tor Home Economics Teachers; The Smith-Hughes Act and the College of Agriculture of Cornell University; Elisha Benjamin Andrews.
Educational Notes and News.
Quotations:
Educational Error in Nemesis.
Books and Literature:
Pintner and Paterson's Scale of Performance Tests.
The Applemann Case.
Educational Research and Statistics:
Standard Tests in an Ungraded Class, L. A. Williams.
Societies and Meetings:
The Association of Urban Universities.

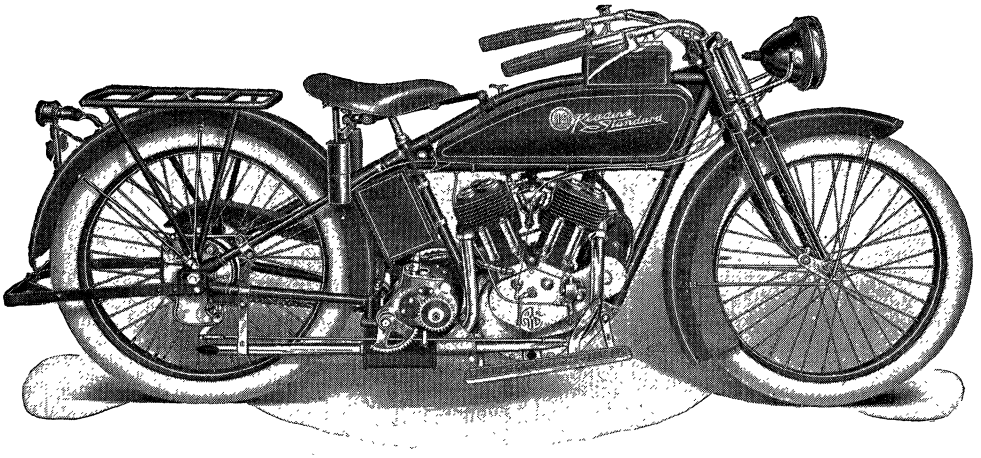
# *R-S The Original Mechanically Operated Side by Side Valve Motor*



Time and again, during the past nine years we have demonstrated that the R-S Motor with its integral cams and gears of specially treated Vanadium Steel, its large cooling flanges, its long stroke, its mechanically operated Valves is the most reliable, flexible, powerful and durable Motor that stands the test of time. It triumphs over the worst road conditions and survives the most gruelling tests, yet remains fresh and sweet through it all—never taxed to its utmost, but always with plenty of power on which to draw.

We are the originators of the Mechanically Operated Side by Side Valve Motor and therefore eight years in advance of all others. The R-S is not an experiment at the expense of the rider.

With such a motor to start with is there any wonder that the other features of the R-S are in keeping with the recognized superiority of the R-S Motors.

Write for catalogue and dealer's proposition.

---

## READING STANDARD COMPANY

**511 Water Street** **READING, PA.**

# The Scientific Monthly

*Entered as second-class matter October 1, 1915, at the post-office of Lancaster, Pennsylvania, under the Act of March 3, 1879*

### CONTENTS OF THE OCTOBER NUMBER

Applications of Science to Warfare in France. Dr. George K. Burgess.
Food in War Time. Professor Graham Lusk.
Specific Preventive and Curative Therapy with Special Reference to Gaseous Gangrene. Dr. Ida W. Pritchett.
Is an Informal Peace Conference Now Possible? Dr. Charles W. Eliot.
A Botanical Trip to the Hawaiian Islands. Professor A. S. Hitchcock.
The Track of Evolution. Professor S. N. Patten.
Scientific Management and Socialism. Professor Malcolm Keir.
Families of American Men of Science. Professor J. McKeen Cattell.
Progress of Science:
French Contributions to Science; The Brooklyn Botanic Garden: Scientific Items.

### CONTENTS OF THE NOVEMBER NUMBER

Bacteriology and the War. Dr. David John Davis.
The Sun and the Weather. Dr. C. G. Abbot.
Evidences of Full Maturity and Early Decline. Dr. J. Madison Taylor.
A Botanical Trip to the Hawaiian Islands. Professor A. S. Hitchcock.
The Influence of Anthropology upon History. Dr. Wilson D. Wallis
The Educational Theory of Social Progress. Professor Charles A. Ellwood.
The Complexity of the Chemical Elements. Dr. Frederick Soddy.
The First Hundred Years of the New York Academy of Sciences. Dr. John Hendley Barnhart.
The Progress of Science:
The National Research Council; Forest Battalions for Service in France; Physiologists and Biochemists in the National Service; The Psychological Examination of Recruits; Occupational Census of the Army; Scientific Items.

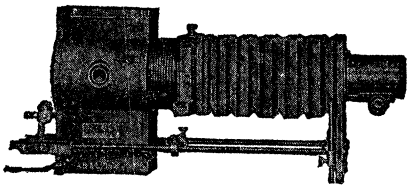
## Ideal for Platform, Club or Laboratory



The lecturer or scientist who visualizes his theme by the unusually graphic presentation afforded by the Balopticon finds his efforts doubly effective.

# Bausch and Lomb Balopticon

**The Perfect Stereopticon**

—because of its superior optical equipment projects a sharp, clear image. The new 1000-watt, gas-filled Mazda lamp gives more brilliant illumination than the ordinary A. C. arc lamp, yet it is more economical and entirely automatic. The price of the Combined Model (illustrated) is *$120.* It takes slides or opaque objects, with instant interchange. Other types are shown in our Illustrated Circular—free on request.

**BAUSCH & LOMB OPTICAL CO.**

**408 St. Paul St., ROCHESTER, N. Y.**

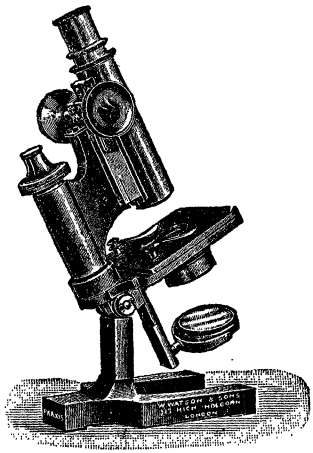
Leading American Makers of Microscopes, Photographic and Ophthalmic Lenses, Projection Lanterns (Balopticons) Binoculars, and other High-Grade Optical Products

# W. Watson & Sons, Ltd.

**BRITISH MADE**

## STUDENTS MICROSCOPES

The "Praxis" Stand is the Student's model par excellence. Made throughout with the same accuracy and finish as on Watson's highest priced Stands.



A few special points are:—Standardization so that additional movements may be fitted as required. Lever fine adjustment. Constructed of two solid castings and indestructible. All parts are slotted and sprung to compensate for wear.

Price for Stand only $18.90.

**Catalogue of Microscopes and Accessories for all purposes gratis on request from**
